

8/17/97

To whom it may concern;

I have a strong knowledge in computers and the internet. I am an expert on Macintosh computers, I am also very good with a windows machine. I am currently working towards a degree in math with a computer science specialty. I have a lot of experience, solving system crashes, installing memory and hard drives, and hard drive maintenance, on my own computer, and many friend's computers. I also have experience surfing, developing for, and reading about the web. I have learned a lot about color, and graphics for the web from working with my sister Lynda, and her husband Bruce. I have listed many jobs and references below. If you have any questions for me please let me know. I am looking forward to hearing from you soon.

Thank you,
Steve Weinman

Education

5/84-Present *Santa Monica City College* Part-time and full-time student.

I am transferring to UCLA in Fall of 97 as a Mathematics major with a specialty in Computers.

1984 Graduated from *University High School* in Westwood, CA.

Hobbies/Interests

World Wide Web browsing and development, computers, and music. I have a strong knowledge of computer hardware, peripherals, and the internet. My specialty is Macs, and I also Know PCs.

January 9, 1997

To whom it may concern;

Please take this letter as a general letter of recommendation for Steven Weinman. Steve was in my employ with another entity (Business Computer Services) for the period between May, 1990 and October, 1993.

During that time he worked as a computer technician, responsible for the construction, maintenance, and support of not only the computers in our organization but those we sold to our clients. He showed a fine attention to detail, the ability to deal with many tasks simultaneously, and a conscientious work ethic.

In short, in my opinion, he is an asset to any organization that employs him.

Cordially,

James A. Lee CEO

CTTS

(213) 962-8313 (f)

To Whom it May Concern,

Steven Weinman worked with me and my husband Bruce Heavin on our book, Coloring Web Graphics. He created hundreds of Photoshop files for our CD-ROM, which were very tedious to make. He did a perfect job, using his own equipment and computer skills, and delivered the job on time. We really enjoyed working with Steven and felt we could rely on him to be on time and budget. We would gladly hire him again, and look forward to having a project where that is possible.

Sincerely,

Lynda and Bruce Heavin
